BOOK BINDING.

IF you want your Periodicals and Music bound in any style, plain or ornamental, call at STANWOOD'S, who will do them as cheap and neat as any one else.

British Periodical Literature.

REPUBLICATION OF
The London Quarterly Review,
The Edinburgh Review,
The North British Review,
The Westminster Review,
—AND—
Blackwood's Edinburgh Magazine.

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise. As literary organs they stand far in advance of any works of a similar stamp now published, while the political complexion of each is marked by a dignity, candor and forbearance, not often found in works of a party character.

They embrace the views of the three great parties in England—Tory, Whig and Radical—"Blackwood" and the "London Quarterly" are Tory, the "Edinburgh Review" Whig, and the "Westminster Review" Radical. The "North British Review" is more of a religious character, having been originally edited by Dr. Chalmers, and now, since his death, being conducted by his son-in-law, Dr. Hanna, associated with Sir David Brewster. Its literary character is of the very highest order.— The "Westminster," though reprinted under that title only, is published in England under the title of the "Foreign Quarterly and Westminster," it being in fact a union of the two Reviews formerly published and reprinted under separate titles. It has, therefore, the advantage by this combination, of uniting in one work the best features of both, as heretofore issued.

The above Periodicals are reprinted in New York, immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals; Blackwood's Magazine being an exact *fac simile* of the Edinburgh Edition.

TERMS.

For any one of the four Reviews,		$3 00 per annum
For any two	do	5 00 "
For any three	do	7 00 "
For all four of the Reviews,		8 00 "
For Blackwood's Magazine,		3 00 "
For Blackwood and three Reviews,		9 00 "
For Blackwood and the four Reviews,		10 00 "

Payments to be made in all cases in advance.

CLUBBING.

Four copies of any or all the above works will be sent to one address on payment of the regular subscription for three—the fourth copy being gratis.

EARLY COPIES.

Our late arrangement with the British publishers of Blackwood's Magazine secures to us early sheets of that work, by which we are enabled to place the entire number in the hands of subscribers before any portion of it can be reprinted in any of the American Journals. For this and other advantages secured to our subscribers, we pay so large a consideration that we *may* be compelled to raise the price of the Magazine.

☞ *Something may therefore be gained by subscribing early.*

PATENTS.
AMERICAN AND FOREIGN OFFICE,
And Agency of the U. S. Patent Office, Washington
22 State Street—Boston.

THE subscriber, by appointment from the Commissioner of Patents, is Agent of the U. S. Patent Office for receiving and forwarding to the same models, specimens or manufactures to be patented, or deposited therein, which will be sent *free of expense and risk*, and with despatch. He will prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, will make researches into American and Foreign works, to test the validity of inventions, and render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions and of consulting in respect to them, *matters, in general, of paramount importance in order to obtain correct specifications and claims.* The experience of *sixteen* years practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment.

NEVER DESPAIR OF LIFE!
KELLEY & CO'S
HIGHLY CONCENTRATED
SARSAPARILLA

Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives Annually!!

10,000 CASES

Of SCROFULA cured by it this year and 5,000 Cases DYSPEPSIA and HUMORS, of which *proof* can be furnished. This is the only medicine known to cure these diseases.

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle and then be far superior to any in use. It is put into the Bottle its FULL STRENGTH and power, without reducing it, and this is done for the special benefit of those who use it, as it is objected to all other Sarsaparillas that they are Weak, Clumsy, Adulterated, Sickish and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be

Six Times Stronger

than any other, and Six Times Better, Safer, Surer and Cheaper than all others. *THIS* Sarsaparilla has bestowed on it some of the best MEDICAL Talents and Skill in the world, and CURES all the Sickness, KILLS all the Pain and REMOVES all the suffering that it is in the power of Human means to do. It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from **Impure Blood!**

CONSUMPTION CURED WITH
KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill, CERTIFIES, astonishing as it may seem, that he actually CURED a case of **Consumption** with Kelley & Co's Sarsaparilla, and says "that there is no medicine in which he has so much confidence for **Diseases of the Lungs.**" Some will marvel at this REMARKABLE Cure, but hundreds are known to the fact. This INESTIMABLE Sarsaparilla is also doing wonders in foreign cities. And even

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England, that "there is no other medicine which is CAPABLE of doing so MUCH GOOD, and yet so INCAPABLE of doing injury." What distinguished compliments are these? Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails, the

Severest Scrofula and Humors,

where the flesh falls off the bones—the bones are diseased and the DART OF DEATH seems ready to strike the sufferer. And the reason for this is, that it makes the **BLOOD** perfectly Pure, Rich, Healthy, Quick, Free, Nutritious. It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Swollen and Painful, Strength wasting, Appetite gone, Pulse weak, or Feverish, Skin yellow, Nerves deranged. It restores Health, Strength, and Vigor to every disordered function of the System—causing them to move on just as Nature requires. And for its WONDERFUL Power over Disease in every form and part which no other Medicine possesses, the public justly style it the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas is, that it does not tamper with the patient or prolong his suffering. But at first attacks the disease and stops it, then removes it, then brings up the flesh and strength on a perfectly pure blood, so that the cure is all as thorough and permanent. Others only scatter or block in the disease, but this EXTIRPATES it wholly from the system—this saves the patient's life while others endanger it. The whole Body is made so healthy by the use of this GIANT MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant, that **Medical Colleges, Professors,** and Physicians always prefer it, for the sake of its Superiority. Try it all you who are seeking the PRICELESS BLESSINGS OF HEALTH!

Ladies, Married and Unmarried!

It is for you especially, that this Sarsaparilla is made, as the HEALING ART has been tasked to the utmost to have it exactly suited to **FEMALE COMPLAINTS.** These Complaints have never been cured as they ought, hence it is that all the medicines which are used with the hope of Cure, so invariably and entirely fail. But this Sarsaparilla has the **SPECIAL** ability to cure every Disease, Affliction or Pain which comes under this head. It regulates the secretions—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles.

DR. STEPHEN JEWETT'S
Justly and Highly Celebrated
Family Medicines!
Comprising the [illegible]
Health Restoring Bitters,
PULMONARY ELIXER,
AND
Strengthening Plaster.

TRIED and proved by their continued use for the last fifty years, to be superior to any other preparations for the cure of every species of disease dependant on

Impurities of the Blood, Derangement of the Stomach, Bowels and Liver, and all affections of the Lungs, Air Passages and Throat, as also Pain in the Bones, Joints, Side and Back, Rheumatism, Weak Stomach, Cramp, &c.

None genuine unless signed on the wrapper, "Stephen Jewett & Co." with a pen, to whom direct all orders.

Prepared by STEPHEN JEWETT, son of the late Dr. STEPHEN JEWETT, of Rindge, N. H.

Principal Office,—No. 30, India Street, Boston.

(Please read the following certificate of a highly respectable and aged [illegible].)

RINDGE N. H., April 1 18[illegible]

To all whom it may concern.

I, the undersigned, do hereby certify that I was acquainted with the late Dr. Stephen Jewett from my boyhood up to the time of his death, and have been [illegible] of his [illegible] medical skill and knowledge of Botany, with hundreds of others now living, and that in the year 18[illegible] I was afflicted with [illegible] palpitation of the heart, pain in the side and general debility, [illegible] *unable to attend to my business*, and [illegible] of the late Dr. Stephen Jewett I had recourse to his far famed *Bitters* and *Plaster*, and by their use was permanently cured. Since the above named date, I have used Dr. Jewett's medicine with equally good effect as prepared by his son, Stephen Jewett, [illegible] of the late Dr. Stephen Jewett of Rindge, N. H. and I cheerfully recommend them to the public as safe and [illegible] medicines—and being composed entirely of vegetables I think them far better suited to the diseases of our climate than medicines composed of minerals or of [illegible] foreign [illegible]. I consider Dr. Stephen Jewett's Strengthening Plaster far superior to any other application, for the purposes for which it is recommended, of any that I have ever known.

EBENEZER BLAKE.

DR. STEPHEN JEWETT'S
Health Restoring Bitters.

These Bitters, acting as they do upon the Stomach, Liver and Bowels, remove all the morbid secretions, thereby purifying the blood and [illegible] the digestive organs, not only cure diseases already existing, but they also fortify the system against all attacks of disease. It is a common remark among those who have used Dr. Jewett's Bitters, that they have but little need of [illegible]. The remark is strictly true, for while the stomach and bowels are kept in a good condition, and the blood pure, all the great predisposing causes are removed, and the whole system is fortified against those morbific influences which, under less favorable circumstances, would have engendered perhaps fatal disease.

In order that the public may know that they are offered a truly excellent article, we append the following certificate, which may be seen, with numerous others, in their original, by calling on the proprietor.

BOSTON, May 15, 1848.

To all whom it may concern.—This may certify that I have been for years troubled with a scrofulous humor, which has been very troublesome, and was fast undermining my health, and had severe pains in the back, loss of appetite, languor and general debility.

A short time since I commenced taking Dr. Jewett's Health Restoring Bitters, and in a very short time my humors and pains left me, my appetite improved, and my health has not been so good for years, all of which I attribute to Dr. Jewett's Health Restoring Bitters.

(Mrs.) J. H. RUSSELL, Beach Street.

DR. STEPHEN JEWETT'S
Pulmonary Elixer.

Nearly one third of all the deaths that occur in New England are caused either directly or indirectly by diseases of the Lungs and Chest. Why is this great sacrifice of human life? How happens it that the brightest intellects, of the highest promise, the hope and support of declining years, are smitten down in early life? Why is it that so many families have been made desolate by that fell destroyer Consumption? And how happens it that so many interesting and lovely children are cut down every year by those dread diseases, the Quinsy and Croup? Is it because these diseases are incurable? Physicians will tell you these diseases can be cured—if taken in season.

It is true these diseases can be cured with almost absolute certainty—if taken in season. Everybody should be aware of this fact, and provide themselves with Dr. Jewett's Pulmonary Elixer.

The following certificate, among numerous others which have been received, are appended for the benefit of those who desire to see certificates.

WINCHENDON, Mass. March 10, 18[illegible]

Stephen Jewett—Dear Sir—I feel it a duty to you and to the public generally, to inform you all, who may have been afflicted as I have, that I have been entirely cured of a severe and long continued cough by one bottle of your Pulmonary Elixer.— For months I have been a great sufferer. I had pain in my left side, sore throat, constant cough, and raised a good deal of bad looking matter. My strength was gone, and my flesh was wasting away. I took many things without benefit, and was steadily getting worse, till I procured your Pulmonary Elixer, which has cured me, and I cheerfully recommend it to all who are troubled with coughs.

Yours truly,

THOS. CUMMINGS.

DR. STEPHEN JEWETT'S
Strengthening Plaster.

These Plasters possess the property of *removing Pain, curing Lameness, Cramp, Pain or Weakness in the Back, Joints or Side, Rheumatism, Weak Stomach, &c.* and when used in connection with the Bitters in Liver Diseases will prove very beneficial in removing the peculiar pain between the shoulders, and in the side and back, well known to those suffering with such diseases. This Plaster, from the quantity and quality given, is vastly cheaper than, and superior to the "Poor Man's," or any other Plasters, and can be made any size wanted, without waste. One roll will make five good sized Plasters. A single trial will be all the certificate necessary.

TREATMENT of CONSUMPTION and other DISEASES *not cured by Medicine alone.*

DR. S. INGALLS, whose popular lectures on Consumption and Chronic Diseases have been delivered throughout New England, is now permanently located in Boston, and prepared to receive patients at his office, or to visit them (if necessary) at their homes.

As Dr. Ingalls' business extends through the New England States, invalids who are desirous to know something of him before consulting him, will be referred (by letter or otherwise) to persons of undoubted veracity in their immediate vicinity, and thus be enabled to gain the desired information.

Letters (post-paid) from abroad, will receive due attention.

Municipal Election.

In a few weeks the annual election of Mayor and city officers will take place It is, we believe, the determination of the Whig party to keep up its organization and for this purpose to make its nomination of Mayor, and Ward officers The Whig city committee will, undoubtedly, at the proper time give notice for the meeting of the general and Ward caucusses, and thus place the election on political grounds

There are those in the city who are desirous of conducting the election of city officers upon a temperance basis irrespective of political parties We trust that such councils will not prevail The Whig council of the present year having special reference to the wishes of the friends of temperance elected a city marshal of opposing politics for the very purpose of doing the best for the promotion of temperance What more could an exclusive temperance board have done' and then again, a large majority of the boards are temperance men and disposed in all respects to favor the cause of temperance We see no occasion for a movement now in favor of a special temperance organization Nothing can be gained by setting up such an opposition against the Whigs, when they are disposed to offer candidates unobjectionable on the score of temperance,

☞A recent charter has been granted to the Kentucky legislature, for the manufacture of Linen at Maysville This county in which the manufacture is to be started, is the finest hemp and flax growing county in the whole country There is no reason to doubt the entire success of the enterprise, especially as some persons from Ireland and Scotland who have experience in manufacturing linen of hemp, are to engage in it

The New York Tribune states that there is one provision in the charter of this company which is new and which has a favorable aspect and cannot fail of working advantageously It is this One quarter of the capital stock is reserved for such hands as choose to purchase, making them, so far as the purchase extends, partners in the establishment We commend this provision to all manufacturing companies, not only as an appropriate means of securing the care and faithfulness of the operatives, but a very sure means of elevating them as human beings

By pursuing a similar course the union of capital and labor may not only be made more profitable to each, but serve to show the necessity and the advantages of the principles of association in all the affairs and interests of life — It ought to be the desire of capital to be intimately associated with labor, and the laborer ought to be ambitious to become interested in capital, to have his own possessions his own home, and to lay a basis of solid independence not for itself alone, but as a secure foundation on which to erect a useful life

☞It may not be worth while to boast of cold weather, but when people are in the midst of a straight out winter it is well enough to let them know it and to put it on record for future reference At this writing, 20th of February, the Mercury has been below zero twenty-seven times since the first of January last And for ten days past it has been below zero every morning, and has averaged nearly fourteen degrees below in the morning, during the whole ten days The sleighing all this year has been perfect

Fires at Belfast.

The Signal states that a large workshop in S C Nickerson's ship yard, and a large amount of carpenters tools were destroyed, last week, by fire also a house near the shore, occupied by an Irish family named Connel The family consisted of a man, wife and six children The husband and wife both froze their feet from exposure—the wife quite severely

☞E L Hamlin, Esq, has in course of preparation a lecture on Arnold's Expedition to Quebec during the revolutionary war This will be a highly interesting subject particularly to those who recollect the venerable Dr Spring, of Newburyport, who was the chaplain to that expedition, and other worthies who were engaged in it

This lecture will shortly be delivered before the Mechanics Association

☞Judge McLean, it seems, declines the honor of a seat in the U S Senate A Washington correspondent of the Philadelphia North American says, that immediately on receiving the information of his nomination for Senator, by the Whigs of the Ohio Legislature, he dispatched an answer by Telegraph to Columbus, declining the nomination, Considerations of a private character, the Judge says, alone prevent him from acceding to the wishes of his friends

☞The Boston Mail says that it doubts whether the in-coming Senate was ever matched by any Legislative body of men in the world — Where else can be found such an 'embodiment as Clay, Webster, Calhoun, Benton, Clayton Corwin, Davis of Mass, Seward, Mangum, Berrien, and a host of others but scarcely less brilliant lights of the age' Not anywhere in our day and generation, certainly

☞A lecturer in Bath states that the universal Yankee nation, through the workings of the mighty inventions of the age, such as the 'Railway,' the 'Horror-Scope, the 'Magnetic Telegraph,' 'Swain's Panacea,' the 'Baby-Jumper,' and the 'Patent Double-breasted, Back-action, Self-Regulating, Air-tight, Hot-Blast Parlor Stove,' can do anything

☞It is the opinion of Dr Webster, of Cambridge, that there is a wide spread disease among dogs at present, which terminates in many cases of hydrophobia If that disease should attack the dogs in this city there would be little if any hope of escape for our citizens

☞Our neighbor of the Democrat, nothing daunted by the new paper which a portion of its party are about to start in this city, has procured new type, and this week has given the inside of his paper a new dress, which looks very neat and trig

☞Dr Aaron Young of this city, is lecturing before the Portland Lyceum on Chemistry

Quartette Concert.

To the Editor of the Whig & Courier —

I was very much pleased this morning to see a notice in your paper of a concert to come off Thursday evening next, by the Bangor Quartette Club Having had the pleasure of listening to some of their private performances, I am happy to have the opportunity to say a good word for them, hoping it will do something towards awakening that interest in the community which their superior merit so justly entitle them As a Quartette Club, they are destined to take a high rank They will even now favorably compare with the Harmoneons, Bakers, and other-like associations

Their performances are not only distinguished for the harmony of their voices, but for the neatness of their execution

They excel in enunciation, and in their quartetts, and so perfect is their harmony that the tone, time and melody of each voice are distinctly heard, in unison and for the clear and appropriate expression of the sentiment, as well as for the modulation and intonation of voice to suit the emphatic words, and awaken the feeling intended to be elicited by the sentiment

The arrangement of their music evinces good taste and discrimination, and is calculated to display the peculiarities of voice of the performers Some of their music I believe has never been performed in Bangor such as Napoleon's funeral, and the "Old Pauper," either of which would well pay one for the price of admission to the concert

Prof Tufts will preside at the piano forte—although a new comer among us, is too well known as an accomplished musician to need any encomium from me Let us give them a full house—a regular bumper — G

California and the Isthmus.

On Tuesday evening, Lieut Joseph Lanman, of the United States Navy, arrived in this city as bearer of despatches from the Pacific squadron He confirms the reports in regard to the extent and productiveness of the gold mines, but says that many of the letter writers in that region who are holders of land have colored their facts to some extent, with a view of promoting their individual interests Only about an hour before he left, he saw a man on board the flag ship, just arrived from the mines, who confirmed the previous reports in regard to the discoveries on the river Stoneslow, where he had seen a single lump of gold weighing nine pounds, and heard of one that weighed twenty pounds The gold excitement in Monterey had entirely abated, the immense mineral wealth of the country being looked upon as an established fact There was no disposition (except among the land holders) to exaggerate, and this was mentioned to Lieut Lanman by Gov R B Mason as a single circumstance

For a year past Lieut Lanman has been performing the duties of collector at the port of Monterey, and having seen every man who had returned from a visit to the mines, his opportunities for obtaining authentic information were better than if he had visited the mines in person. He informs us that no large amounts of gold dust or ore were selling at a sacrifice, he does not believe that one hundred ounces of the gold dust could have been purchased at the reported rate of eight dollars—the ordinary prices ranging from ten to twelve dollars per ounce — The weekly receipts of gold at San Francisco were estimated at from thirty to fifty thousand dollars Lieut Lanman knew of one individual who had in his possession thirty thousand dollars worth of pure ore and dust The current value of gold in trade was sixteen dollars per ounce There was a scarcity of coin throughout the country, but when Lieut L arrived at Panama he was informed that $600,000 had just been shipped for California by certain Mexican gentlemen, and that the American consul at Paita, (Mr Roden) had in charge coin to the value of $113,000, which he intended to exchange for ore and dust

Peru and Chili are not behind the United States in regard to the gold excitement, no less than twenty vessels having sailed from those two countries within a short time, bound to San Francisco They were all well laden with provisions and other necessaries of life, and their arrival would probably reduce the prices, which have heretofore been so exorbitant

Lieut Lanman left Paita, in the steamship California, on the 12th of January, and arrived at Panama on the 17th This noble steamer was fifty six days and nineteen hours (steaming time) from the city of New York to her anchorage in Panama Bay She performed the whole route, coming through the Straits of Magellan, without the least accident or injury to the ship She had seventeen cabin passengers and eighty forward passengers, and it was understood that they should not interfere with the "through passengers from New York to California who might be waiting at Panama The number of persons at that place was found to be about five hundred, and there was no doubt but they would all find an immediate passage to their place of destination by the American ship Philadelphia, and an English ship delivering coal for the steamers

There were some reports of cholera at Panama, but few deaths among the emigrants.

Lieut Lanman left Panama on the 19th January with two mules, for which the Consul had to pay $24, three times the usual price The distance thus travelled was twenty-one miles and was performed in ten hours Over three miles of this road the mules could trot, two miles of the road were indifferent, fourteen very bad, and two almost impassable It is not hilly, but some of the passes are so narrow that the ladies who travel across, are compelled to dispense with their side saddles The remaining portion of the route across the isthmus is performed in canoes, the distance from the place where the mules are left, to Chagres, being 49 miles Lieut Lanman sailed in the steamer Isthmus on the 23d of Jan for Havana, thence to Kingston, and arrived in Washington, as before stated, on the evening of the 13th inst

PROCLAMATION

To the People of Upper California —

The undersigned has the pleasure to announce the ratification of a treaty of peace and friendship between the United States of America and the Mexican Republic, by which Upper California is ceded to the United States

The boundary separating this country from Lower California, 'consists of a straight line drawn from the middle of the Rio Gila, where it unites with the Colorado, to a point on the coast of the Pacific ocean distant one marine league due south of the southernmost point of the port of San Diego'

By the conditions of this treaty, those residing within the limits of that territory thus ceded, who may wish to become citizens of the United States, are absolved from all further allegiance to the Mexican Republic, and will, at the proper time (to be judged of by the Congress of the United States), be incorporated into the Union, and admitted to the enjoyment of all the rights and privileges granted by the constitution to American citizens Those who wish to retain the character of Mexicans will be at liberty to do so, and also retain their property in this territory, or to dispose of it and remove the proceeds thereof wherever they please.

But they must make their election within one year from the thirtieth day of May last, and those who remain after the expiration of that year, without declaring their intention to retain such character, will be considered to have elected to become citizens of the United States In the meantime they will be protected in the free enjoyment of their liberty and property, and secured in the free exercise of their religion — They however are reminded that, as war no longer exists, and as Upper California now belongs to the United States, they owe a strict obedience to the American authorities; and any attempt on their part to disturb the peace and tranquility of the country, will subject them to the severest penalties

The undersigned has received instructions from Washington to take proper measures for the permanent occupation of the newly acquired territory The Congress of the United States (to whom this power alone belongs) will soon confer upon the people of this country the constitutional rights of citizens of the United States, and no doubt in a few short months, we shall have a regularly organized territorial government,—indeed, there is every reason to believe that Congress has already passed the act, and that a civil government is now on its way to this country to replace that which has been organized under the rights of conquest Such territorial government will establish all local laws and regulations, which within the scope of its legitimate powers, it may deem necessary for the public welfare In the mean time, the present civil officers of the country will continue in the exercise of their functions as heretofore, and when vacancies exist, or may occur, they will be filled by regular elections held by the people of the several towns and districts, due notice of such elections being previously given The existing laws of the country will necessarily continue in force till others are made to supply their place

From this new order of things, there will result to California a new destiny Instead of revolutions and insurrections, there will be internal tranquility, instead of a fickle and vacillating policy, there will be a firm and stable government, administering justice with impartiality, and punishing crime with the strong arm of power The arts and sciences will flourish and the labors of the agriculturist, guided by the lamp of learning, will stimulate the earth to the most beautiful production Commerce, freed from the absurd restrictions formerly imposed, will be greatly extended, the choked up channels of trade will be opened and the poisoned fountains of domestic faction forever dried up Americans and Californians will now be one and the same people, subject to the same laws, and enjoying the same rights and privileges, they should, therefore, become a band of brothers, emulating each other in their exertion to develope the wealth and resources, and to secure the peace, happiness, and permanent prosperity of their common country

Done at Monterey, California, this seventh day of August, 184[illegible] R B MASON

Fire at Lawrence.

A destructive occurred at Lawrence, Mass, on Friday evening last The fire was first discovered in a building called the Blue Store, No 52 Common street, from which it spread on both sides, destroying a large building called the "Bangor Block" owned by Messrs Gilligan & Davis, of Bangor, and occupied by Mr J E Gleason, as the Eagle House, by Messrs Dearborn & Hall, dry goods dealers, Mr J M Fairfield grocer, and by Mr Morse, as a dwelling Messrs Gilligan & Davis had $3 500 insured on their building Total loss by the fire is reckoned at about $15,000 —[Mercury

EQUALITY.

Fawning Envy's feeble hope,
Shipwreck's last despairing rope,
Idle wish from Satan sent,
Ruffian prize of Discontent,
Dull, debasing, sordid thing
Crushing down each generous spring,
Stern Procrustes' iron bed
To rack the feet or lop the head,—
Where in all life's social book
Shall you purblind pundit look—
Where, Equality, to find
A sillier lie to cheat mankind?

Tell the truth, yes tell it out,
Nature, without fear or doubt,
Tell it out that never yet
Have two utter equals met
Leaves and fruits on every tree,
Fowls and fish of air and sea,
Stars on high with all their host,
Pebbles from a kingdom's coast,
Search them all—some difference still
Clings to each for good or ill,
Search the world—all worlds—around,
Perfect twins were never found,
Babes of various realm and race
Men of every age and place,
Gifts of God, or wise denials,
Pleasures, sorrows, triumphs, trials,
All things differ everywhere,—
Never two can start quite fair,—
Never two could keep the start—
In soul or body, mind or heart
While the shortest winter's day
To its morrow gloom'd away'

Would then Vanity and Sloth,
And Disappointment scorning both,
And Pride and Meanness, hand in hand,
With Crime and low Ambition stand
To scheme and plot a wholesome plan
Utterly to ruin Man—
Then should they level love and hate,
And grind to atoms all things great,
Corrupt all good, befoul all fair,
Make gladness weep, and hope despair,
And, impotent to raise the dead,
Kill the living in their stead,
By working out the poisoned lie
Your sages call Equality

No! thou phantom false and fair,
Rainbow-castle in the air,
Fit enough for fays or elves
But not for mortals like ourselves,
In this hive of human kind
Where some can see and some are blind
Where some will work though others play
And many swear while many pray,
Where disease and age at length
Must bend and bow to manhood's strength,
Where every one of God's good gifts
The favored from his fellow lifts,
Equal!—equal!—tush the word
In truer letters spells absurd

Equal? there is One alone
Reigns Coequal on His throne,
Nor can any creature dare
With such Essence to compare
All things else through change and chance,
And time, and place, and circumstance,
And partial Providence must, yet,
And man's I will, and God's you must,—
All things differing each from each,
Vainly still their lesson teach,
If Equality be thus
Possible or wise for us,
Where with various means and powers
In a trial-world like ours
We must work as best we may,
And leave it to the Judgment Day
To declare how ill or well
Earth's advantages may tell
Then, shall equal meed be given
By the justice of high Heaven:
Then, shall compensation true
Set us all in places new:
And—how many counted first
There shall stand the worst accurst!
And—how many here so poor,
Lazarus laid at Dives's door,
There instead of last and least,
First shall sit at Life's great feast!

☞N P Willis, who is capable of judging in such matters, says —

"If there were an apprenticeship to the trade of authorship, it would be as essential that a young author should pass a year in a printing office, as that a future sea-captain should make a voyage before the mast It is not alone that he would thus learn the importance of properly preparing copy for the printers by legible penmanship and a knowledge of the signs, marks and abbreviations by which proof is corrected — There is no such effectual 'analysis of style, as the process of type-setting As he takes up letter by letter, of a long or complex sentence, the compositor becomes most critically aware of where the sentence might be shortened to save his labor He detects repetitions—becomes impatient of redundancies recognizes careless or inappropriate use of expletives, and soon acquires a habit of putting an admiring value on 'clearness and 'brevity'

We venture to say that it would alter the whole character of American literature, if the authors (of our very 'fluent nation') were compelled, before legally receiving a copyright, to have given one year to labor at the compositor's case We have said nothing of the art of nice punctuation, which is also acquired in a printing office, and by which a style is made as much more tasteful as champagne by effervescing

Of most books, indeed, we would rather have the criticism of the workmen in the office where it was printed, than of the reviewers who skim and pronounce upon it

A Railway Circulating Library.

Captain Huish proposes to establish a gigantic circulating library, on the plan that the passenger may select a book at a stall, paying the price thereof, and after travelling any distance on the railway, where his journey terminates deliver it at the station, receiving back the value, less a trifle for the perusal When it is considered that the London and North Western Railway extends over nearly 500 miles, and that more than six millions of passengers travel upon it annually, we cannot conceive any plan more likely than the above to while away a tedious hour, and improve the time necessarily spent in journeying. Consumption is the great curse of our northern latitudes It is the blight of domestic felicity, and the despoiler of beauty It robs the cheek of its healthful bloom, the mind of its serenity and the eye of its brilliancy It wastes the form, dims the intellect, and plunges its victim into an early grave The young and the old, the serious and the gay, the city belle, the country lass are alike its prey and its victims Blessings on the man then, whose genius and research furnished us weapons to bid defiance to this "Dweller on the Threshold" He merits the applause and gratitude of ages,—he shall have ours, at least

One of the most important discoveries of modern science for the cure of pulmonary affections is the *BALSAM of WILD CHERRY* and the credit of its discovery is due to the celebrated Dr Wistar This valuable compound has restored thousands of sufferers to health It is expectorant tonic and demulcent and it is said to be a purely vegetable preparation Under its magic influence the most obstinate *coughs colds and bronchial irritations disappear* We have used it and can recommend it particularly at this season when the great cause of disease, east winds are so prevalent

CHOICE
FRUIT TREES.

HAVING purchased the entire Nursery of Messrs. Henry Little & Co., and removed it to our Garden on 14th Street, near the dwelling of Mr. Albert Noyes on Levant road, we would inform the public that in April next we shall have for sale the most choice *Apple, Pear, Plum, Cherry*, and other Fruit and Ornamental Trees, *Shrubs, Vines, Lancashire Gooseberries, Currants, &c*, that can be found in the Northern States, and all selected to suit our climate.

To guard against admitting any poor variety into our collection of Trees, we have the pleasure of assuring the public that we have contracted with COL. LITTLE to make all our Spring purchases of Trees and Shrubs He is a member of the *National Congress of Fruit Growers*, and is also a member of the Standing Committee to decide on the merits of each variety of Fruits exhibited at said *Congress* from the several States of the Union, including the Canadas, and is in correspondence with the most noted Pomologists of our country.

Any memorandum for Trees and Shrubs left with him or us will receive due attention.

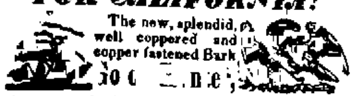
FOR CALIFORNIA!



The new, splendid, well coppered and copper fastened Bark

Gold Hunter,

of three hundred tons burthen, now building, will be ready to leave for the *Gold Regions* the last of March next, and will proceed directly there, provided a sufficient number of passengers and quantity of freight are procured.

This Bark will remain upon the coast of California for several months at the most convenient point for the gold region, and then return to Bangor.

Passengers in the GOLD HUNTER will be supplied with all the necessaries of life, and will have the privilege of making the Bark their home and store-house while she is on the coast. She will be fitted up expressly for this business, and every attention will be paid to the wants and wishes of her passengers. This is one of the safest and pleasantest modes in which our enterprising citizens, who wish to avail themselves of the recently discovered treasures, can do so.

The GOLD HUNTER will be commanded by one of the most experienced and thorough seamen on the river, in whom all will have entire confidence, and the voyage will be wholly made up under his direction and with special reference to the interests of the passengers.

No voyage has been projected for a long time which promises to be so pleasant and profitable as this, and those who propose to take passage in this substantial vessel, and avail themselves of the numerous advantages here offered, will please make immediate application to the subscriber.

Ayer's Cherry Pectoral,

For Coughs, Colds, Croup, Asthma, Hoarseness, Hooping Cough, Bronchitis, and CONSUMPTION

The Remedy that Never Fails!

SURELY Truth is stranger than Fiction! *CONSUMPTIVES, READ THIS!*

Norwich, Conn., April 26, 1848.

Dr. J. C. Ayer—Dear Sir.—Agreeable to the request of your agent, we will cheerfully state what we have known of the effects of your CHERRY PECTORAL, and they have been astonishing indeed. Mrs Betsy Wheeler had been afflicted with a severe and relentless cough, which reduced her very low; so low, that little hope could be entertained of her recovery. Numerous remedies had been tried without effect, before the Cherry Pectoral. That, and that alone, has cured her. George Wilkinson, Esq., had to our knowledge been afflicted with Asthma for *eleven* years, and grown yearly worse, until the Cherry Pectoral has now removed the disease, and he is as free from any of its symptoms as we are. The Rev. Mark Daniels had been so severely attacked with Bronchitis as to disable him from his public duties, and nothing has afforded him relief until I (Mr Corning) carried him a bottle of your Pectoral, which cured him at once, and he now officiates as usual in his place. These are three of the cases in which we have known it successful, but never to fail. We have great pleasure in certifying to these facts, and are, respected sir, your humble servants,
REV. DAVID CORNING,
Pastor of Preston Plains Church
HON JOSEPH CASTLES,
Ex. Mem. [illegible]

Nothing has been offered to the public on which they can so surely depend for relief and cure as this elegant and truly wonderful preparation. Indeed, there is now every reason to hope an infallible Remedy has at length been found for the scourge and terror of our climate—Disease of the Lungs.

A NATURAL
HAIR DYE!

BALLARD'S IMPROVED LIQUID HAIR DYE is the best preparation that we have ever seen for coloring the hair. It will positively restore grey Hair to its original color, whether auburn, brown or black, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original. Sandy, light, or red hair can be matched with any darker shade.

From numerous laudatory testimonials, which may be seen at the manufacturer's wholesale depot, No 51 Cortlandt street, New York, the following, from the celebrated Cristadoro, of the Astor House, is presented:—

No 6 Astor House, New York, Sept 21, 1848.—Mr. O. M. Ballard—Dear Sir—It is but justice to you to say, that of all the preparations for dying hair I have tried, none has answered so well the purpose, as your Improved Liquid Hair Dye, and with a great deal less trouble in using it than any other. I give you this testimony upon my solemn conviction that it is worthy the patronage of all who may wish to exchange gray, light, or red hair for a beautiful auburn, brown, or black; and from the peculiar softness and lustre which it imparts to the hair, the ladies cannot but give it a decided preference. Yours respectfully,
JOSEPH CRISTADORO

DR. WARREN'S

Sarsaparilla, Tomato and Wild Cherry

PHYSICAL BITTERS,

At 50 Cents per Bottle!

SARSAPARILLA, TOMATO AND WILD CHERRY BITTERS have now become a standard medicine, universally approved by physicians, and is an efficient and effectual remedy for *Scrofulous, Mercurial and Cutaneous Diseases, Jaundice,* Indigestion, Dyspepsia, Bilious Disorders, Liver Complaint, Costiveness, Weak and Sore Stomach, Ulcers and Running Sores, Swelling of the limbs, Pain in the Bones, Tumors in the Throat, Rheumatic Affections, Salt Rheum, Erysipelas, bad Humors, Eruptions on the face or body, Cancerous Sores, King's Evil, Chronic Catarrh, Languor, Debility, Headache, *Dizziness,* Sallow Complexion, and all those disorders which arise from the abuse of Mercury, or from an impure taint in the blood, no matter how acquired.

The extract here presented is prepared after directions given by the *celebrated Dr. Warren* whose name it bears, and will be *found superior to any preparation* of the kind now in use. It is highly concentrated, entirely vegetable, and very finely flavored to the taste. The change which it produces in the condition and tendency of the system is *speedy and permanent.*

As a Spring Medicine for purifying the blood—strengthening the stomach and body—and checking all consumptive habits—the Sarsaparilla, Tomato and Wild Cherry Bitters are entirely unrivalled.

Dr. Townsend's

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD!

This Extract is put up in Quart Bottles—it is six times cheaper pleasanter and warranted superior to any sold. It cures without vomiting purging sickening or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates disease, it invigorates the body. It is one of the very best

SPRING AND SUMMER MEDICINES

ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich *blood,* a power possessed by no other medicine. And in this lies the grand secret of its wonderful success.—It has performed within the last five years, more than 100,000 cures of severe cases of disease; at least 15,000 were considered incurable. It has saved the lives of more than 5,000 children during the two past seasons.

10,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY.

Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effects of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline, hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system, gives activity to the limbs and strength to the muscular system in a most extraordinary degree.

CONSUMPTION CURED.

Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or profuse expectoration, Pain in the Side, &c. have been and can be cured.

SPITTING BLOOD.

New York, April 28, 1847.

DR. TOWNSEND—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results.

Your obedient servant,

WM. RUSSELL, 65 Catharine st.

RHEUMATISM.

This is only one of more than four thousand cases of Rheumatism that Dr. Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary virtues.

James Cummings, Esq., one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter:

Blackwell's Island, Sept. 14, 1847.

Dr. Townsend—Dear Sir: I have suffered terribly for nine years with the Rheumatism; considerable of the time I could not eat, sleep or walk. I had the most distressing pains, and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good. I am so much better—indeed I am entirely relieved. You are at liberty to use this for the benefit of the afflicted. Yours respectfully,

JAMES CUMMINGS.

FITS! FITS! FITS!

Dr. Townsend, having lately [illegible] his Sarsaparilla in cases of Fits, of course never having recommended it, was surprised to receive the following [illegible] certificate [illegible] and respectable [illegible]

Fordham, August 13, 1847.

Dr. Townsend—Dear Sir: I have a little girl seven years of age, who has been several years afflicted with fits; we tried almost everything for her, but without success; at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in a very delicate state of health, we would give her some of your Sarsaparilla, and are very glad we did so, for it not only restored her strength, but she has had no return of the fits, to our great pleasure and surprise. She is fast becoming rugged and hearty, for which we feel grateful.

Yours respectfully,

JOHN BUTLER, Jr.

FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri, or Falling of the Womb, Costiveness, Piles, Leucorrhoea or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness.—It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine, healthy offspring.

TO MOTHERS AND MARRIED LADIES.

This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, *"The turn of life,"* should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. *This period may be delayed for several years by using this medicine.* Nor is it less valuable for those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all the delicate diseases to which women are subject.

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating the system as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented.

GREAT BLESSING TO MOTHERS AND CHILDREN.

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered. It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon child birth—in Costiveness, Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful. Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement.

BEAUTY AND HEALTH.

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe. This beauty is the offspring of nature—not of powder or soap. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr. Townsend's Sarsaparilla. Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station crowd our office daily.

NOTICE TO THE LADIES.

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff a *great remedy for females, &c., &c.,* and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not. A number of these Mixtures, Pills, &c., are injurious to females, as they aggravate disease, and undermine the constitution.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN.

Dr. Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with bad sores; have taken only four bottles; it took them away, for which I feel myself under great obligation. Yr's respectfully,

ISAAC W. CRAIN, 106 Wooster-st.

OPINIONS OF PHYSICIANS.

Dr. Townsend is almost daily receiving orders from physicians in different parts of the Union.

This is to certify that we, the undersigned Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market.

CAUTION.

Owing to the great success and immense sale of Dr. Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided.

Used by Thousands!

—AND—

Unanimously Approved!!.

It is not our wish to trifle with the health of the community. We desire to be governed by a sacred regard to truth in whatever is here stated in relation to this extraordinary medicine, and it is this feeling of sincerity and good faith which prompts us again and again to call attention to it. We believe that no article has ever been discovered that has conferred a greater amount of benefit on the community, and the more it is known the better it is appreciated.

SAVE YOUR DOCTOR'S BILLS.

Thousands of doctor's bills have been saved by the use of this medicine, and there is little doubt that if it were more generally resorted to, that sickness would in most cases be prevented.

New York, April 17, 1848.

This is to certify that I have used Wright's Indian Vegetable Pills in my family for more than four years, and as a family medicine believe them the best in the world. During that period I have had no occasion for a physician, though my daughter and wife have been very low several times. WILSON TREADWELL, Rivington Street.

NERVOUS DEBILITY—LOSS OF ENERGY.

Wright's Indian Vegetable Pills speedily and permanently restore the declining powers of the human body. This may at first be doubted, but no fact is better established. Those who use it need stand in no apprehension of this purpose; overlook, in doing so, a medicine for [illegible] effectual.

Clymer, Chautauque Co., N. Y., Oct. 5, 1848.

Dr. Wm. Wright—Sir—For the last three or four years I had been gradually running down, and finally became so weak that I was unable to perform my usual labor. I was advised to try your Indian Vegetable Pills, and I am gratified to state that by the use of three or four boxes I feel like myself again, and am now thoroughly cured.

From my own experience I can commend your Pills to the afflicted with confidence that they will be found a medicine of great efficacy and value. Yours truly,

JOHN CLEAVELAND.

WELL SPOKEN OF BY ALL!

Angelica, Allegany Co., N. Y., Sept. 29, 1843.

Dr. Wright, Philadelphia.

Sir—* * * I AM AT LOSS TO EXPRESS WITH WORDS WHAT HAS BEEN SAID IN PRAISE OF YOUR INDIAN VEGETABLE PILLS. All that I have sold to, with whom I have conversed, speak very highly of them. I have acted as your Agent here for the last two years, and have frequently used the Pills myself. I can speak from experience in the subject and can cordially recommend them to my acquaintance and to the public in general. Respectfully yours,

ISRAEL N. HOWE.

Let it be remembered that Wright's Indian Vegetable Pills are prepared with special reference to the laws governing the human body. Consequently they are always good, always safe, always effective in removing our disease. Every family should keep them on hand.

Look out for Counterfeits!

Some are coated with sugar, others are made so to resemble in outer appearance the original article. The safest course is to purchase from the agents only, one or more of whom will be found in every town and county in the State.

The Great Remedy for Gonorrhoea

GLEET, Stricture, and all analogous complaints.

DR. DOUGLASS'S ARABIAN PASTE.

Dr. Douglass is well known, having practiced in the principal cities in the Union, during the last 40 years. His only reason for introducing the Paste in this public manner is the consciousness that there are thousands of ill treated complaints in this city; thousands of individuals who are going down to premature graves by taking the miserable druggist quacks.

Dr. D. most solemnly affirms that during his practice of forty years this Paste has never, in one single instance, failed of effecting a cure in a few days without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days the angry symptoms disappeared, and the patients were discharged, entirely cured.

If the unfortunate, instead of drugging themselves with quack nostrums, would purchase one box of the Arabian Paste, we should not see so many emaciated bodies and sallow countenances as we do at the present time.

☞ In case this Paste should fail to effect a cure in the shortest possible time, ten times the sum paid for it will be given the purchasers on returning the empty boxes.

For sale only by the original inventor and sole proprietor, Dr. PETER G. DOUGLASS, at his Office, No. 55 Union street, Boston, at $5 per box, where he can be confidentially consulted on every disease incident to the human frame, and the patient rely upon the most beneficial course of treatment that can possibly be adopted. Medicine sent to any part of the country.

DR. CHRISTIE'S GALVANIC BELTS, BRACELETS, NECKLACES, AND MAGNETIC FLUID,

For the Removal and Permanent Cure of all NERVOUS DISEASES,

And of those Complaints which are caused by an impaired weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be *the most valuable medicinal discovery of the Age.*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body giving tone to the various organs, and invigorating the entire system. Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic, **GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,**

Liver Complaint,

SPINAL COMPLAINT, and **CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,**

and all

Nervous Diseases,

which complaints arise from one simple cause, namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease,* for they weaken the vital *energies of the already* prostrated system, while under the strengthening *life giving vitalizing* influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists, in the fact that they arrest and cure disease by *outward application,* in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the **GALVANIC BELT,** suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases stimulants are taken, which, *by their action on the nerves and muscles of the stomach,* afford *temporary relief,* but which leave the patient in a lower state and with injured faculties, after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worst symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the *positive element* of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the *positive,* thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

Certificates and Testimonials

From the most Respectable Sources,

Could be given, *sufficient to fill every column in this paper.* We make a few selections. The first is an

EXTRAORDINARY CASE

and conclusively proves that

"Truth is stranger than Fiction."

The following letter, narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and exalted reputation.—

SIDNEY, New Jersey, July 12, 1848.

DR. A. H. CHRISTIE—Dear Sir: You wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about *twenty years I* had been suffering from Dyspepsia. Every year the *symptoms* became worse, nor could I obtain permanent relief from any course of medical treatment whatever. My physicians were skilful and excellent men, but here their prescriptions failed. About *fourteen* years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism which for year after year, caused me indescribable anguish. In the severer paroxysms the skill of my physicians sometimes afforded me *great relief,* but the relief was only temporary. Farther, *in the winter of '45 and '46* in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. *My nervous system was now thoroughly prostrated,* and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous System. *My sufferings were indeed severe* and I had no prospect other than *being entirely laid aside* from the discharge of those duties, and the performance of those labors, in which my soul has ever found the highest of her joys.

But reasoning from effect to cause, I concluded that the *Nervous System must* be reached before any hope could be indulged of my *obtaining relief* from these most distressing maladies. In the whole pharmacopœia there seemed to be no remedial agent which could reach and recuperate my Nervous System, every thing that I had tried for this purpose had completely failed. *At last I was led by my friends* to examine your inventions and (though with no very sanguine hopes of their efficiency) I determined to try the effect of the application of the *GALVANIC BELT AND NECKLACE,* with the MAGNETIC FLUID. This was in June, 1846. TO MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPEPSIA HAD GONE, IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS, NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS, AND MY RHEUMATIC AFFECTION ALSO CEASED TO TROUBLE ME. If time permitted, I could fill a sheet of paper with the details of particulars but I can now only furnish this brief abstract. My Dyspepsia has *never returned,* the Rheumatism once in a while visits me but not severely, and is easily arrested, *and is manifestly* being driven from its hold upon my system, and *my Bronchial affection is entirely cured.* Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections. *They have tried them, WITH HAPPY RESULTS I BELIEVE IN EVERY CASE.*

I am, dear sir, very respectfully yours,

ROBERT W. LANDIS.

☞ Many hundred Certificates from all parts of the country of equally extraordinary character could be given.

☞ No trouble or inconvenience attends the use of *DR. CHRISTIE'S GALVANIC ARTICLES,* and they may be worn by the most feeble and delicate with perfect ease and safety. In many cases the sensation attending their use is *highly pleasant and agreeable.* They can be sent to any part of the country.

McKENNEY'S

COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores, Rheumatism, Swelling of the Feet and Limbs, Swelling of the Tonsils or Sore Throat, Chronic Eruptions of the Skin, and all Scrofulous Diseases, Rigid Cords occasioned by Colds or Strains, Stiff Neck, Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness or Pains in the Stomach, Piles, Corns, Warts, and Common Sores and Cuts and Bruises of all kinds.

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of "All-Healing Ointments" and Panaceas" that are now advertised as the *"most effectual and certain cures"* for all diseases indiscriminately, to which man or animals are subject.

A history of this Salve and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing.

We would only add that we have undertaken the task of manufacturing the above named Salve at an inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and all-healing properties.

To say indeed, that we do not expect to realize a handsome remuneration for our services would be alike useless and untrue. But we flatter ourselves that if, forsooth, we are richly paid, and the article soon very soon has an extensive sale—the Public are receiving a full and ample equivalent.

As we have already intimated, we shall not call to our aid the empty *puffing of the Press,"* or the bought certificates of individuals, and shall make use of them only so far as they have been or hereafter may be, entirely *voluntary* and *unsolicited.*

The Salve is now before the Public!

They, and they alone will decide upon its real virtues and medicinal properties. To say less, were injustice to ourselves—to say more would be superfluous.

Here are some of the many Certificates.—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it communicated swelling from the ankle to the knee. After using many remedies without success I applied some Salve obtained of Mr. A. M. McKenny and continued its application until I had used six boxes which entirely cured me and I have had no return of the disease since. I would also say that I know the above Salve to be a cure for Corns, one of my family having used it for this purpose with complete success.

DANIEL SEAVLY.

Dexter, (Maine) May, 1846.

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure, without success which cost me about forty dollars, I bought 1 box of SMITH & McKENNEY'S SALVE, which effected an entire cure in less than two months.

SIMEON MARSTON.

Gray, May 11, 1846.

BANGOR, Jan. 5, 1846.

Mr. McKenney—In going into the woods in the autumn of 1845 with the charge of quite a number of men, for the winter lumbering operation, I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed to my great satisfaction that it was an invaluable article. I also made application of it in cases of Cuts, Sprains and Bruises upon my cattle and found it equally beneficial. I can truly be called the All Healing Salve.

After having used Dr. Hart's Vegetable Extract [illegible] Mr. B. was soon restored to perfect health, and left the city for the State of Ohio to resume his business.

Rev. Mr. Smith, Rector of St. Peter's Church, [illegible] wood, New Jersey, who has been afflicted with Epileptic Fits for more than forty years, states that he has used Dr. Hart's Vegetable Extract, and his health has been so much improved that he hopes by the blessing to have no more Fits.

EPILEPTIC FITS,

For twenty seven years and six months, cured by the use of this truly wonderful medicine.

Read the following remarkable case of the son of Wm. Sechre, Esq., of Philadelphia, afflicted with Epileptic Fits for twenty seven years and six months. After travelling through England, Scotland, Germany and France, consulting the most eminent physicians and expending for medicine, medical treatment and advice three thousand dollars, returned with his son to this country in November last, without receiving any benefit whatever, and was cured by using

HART'S VEGETABLE EXTRACT.

I have spent over three thousand dollars for medicine and medical attendance. I was advised to take a tour to Europe with him, which I did. I first visited England. I consulted the most eminent physicians there in respect to his case, they examined him and prescribed accordingly. I remained there three months without perceiving any change for the better, which cost me about two hundred and fifty dollars, pocketed by the physicians, and the most that I received was their opinion that my son's case was hopeless and

POSITIVELY INCURABLE.

I accordingly left England, travelled through Scotland, Germany and France, and returned home in the month of November with my son as far from being cured as when I left. I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract, seeing your statements and certificates of so many cures, some of twenty and thirty years standing, and I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract alone he was restored to

PERFECT HEALTH.

His reason, which was so far gone as to unfit him for business, is entirely restored, with the prospect now before him of life, health and usefulness. He is now 28 years of age, and 27 years 6 months of this time has been afflicted with this most dreadful of diseases, but thank God is now enjoying good health.

Now, sir, faith without works I don't believe in. To say I shall be ever grateful to you, is one thing, and as I have enclosed you one hundred dollars, I have no doubt you will think this another and quite a different thing. The debt of gratitude I still owe you, but please accept this amount as interest on the account in advance. Yours very respectfully,

(Signed) WILLIAM SECHRE.

THE TIME IS NOT FAR DISTANT,

When thousands who are now suffering under this dreadful disease, and fearing that the next attack may prove fatal, will find permanent relief and be restored to new life, by using this celebrated medicine.

TO THE AFFLICTED

DR. DOUGLASS respectfully informs the citizens of Boston that he may be consulted on all diseases incident to the human frame, at his office,

No. 55 Union Street.

Dr. D. has been in extensive practice in all parts of the United States, and has now in his possession the best of evidence to show that he is a regular M. D. He has been upwards of 40 years in practice. The diseases of females will receive the Dr's particular attention. He will tell all the diseases from an examination of the eye—this is an advantage that Dr. D. has above all other practitioners, and which will necessarily do away the necessity of a long and unpleasant explanation on the part of the patient of the disease with which they are afflicted. The age and length of time the patient has been suffering, is all the Dr. will require to give them a most thorough knowledge of their complaint, and whether or not a cure can be effected.

Dr. D. has been very successful in the treatment of Colds, Coughs, Consumptions and Liver Complaints, all Pulmonary diseases, Scrofula, Rheumatism, Fits, Dysentary, all diseases of the Eye and Ear, diseases of the Blood, Palpitation of the Heart, Gout, Salt Rheum, Cancers, cutaneous diseases and all affections of the kidneys and bladder, Tic doloreau, Hernia, Abdominal Weakness, Tooth ache, Intemperance, Stammering. Dr. D. warrants a cure of any of the above diseases, if applied to in season.

He would also respectfully inform the Ladies that he will attend to their diseases and complaints from 8 to 12 A M. and from 2 to 9 P. M. A full and general assortment of medicines are kept constantly on hand. Printed directions accompany each bottle or package.

All communications (post paid), with a fee enclosed, will be strictly attended to.

Remember the number—55 Union Street.

THURSDAY, FEBRUARY 22, 1849.

The President Elect

Gen Taylor's stay in Cincinnati was unexpectedly prolonged, and on the 16th that city continued in a higher state of excitement. The General was literally worn down by the attentions he received. At the reception he was so utterly fatigued that he was unable to reply. He was feeble, too, in consequence of a fall at Madison, occasioned by the rush of people to grasp him by the hand. Portions of the city were brilliantly illuminated. He will not visit Baltimore on his route to Washington. A despatch to that effect was received on Saturday.

The Nashville Republican of the 9th, gives the particulars of the General's reception there. At the ringing of the bell to announce his approach, the people, with one impulse, rushed to the landing. As the boat neared the wharf, the old hero uncovered his grey hairs to the crowd, and the welkin rang again with warm and repeated cheers. The cannon on Capitol Hill answered that from the steamer. The procession marched through the various streets. The Fire Companies were out in uniform and with banners. The General was in a carriage drawn by four splendid horses. The reception took place upon the piazza of the City Hall, on the Public Square. Gov Neil S Brown welcomed the General in a very beautiful and touching speech.

The General's reply was said to have been most appropriate, is not published, because, from an oversight, the press was excluded from the gallery. After this, in the parlors of the hotel, the ladies were introduced to the "conquering chief." A ball followed in the evening, where the General delighted all who approached with his suavity and urbanity of manner. [illegible] the girls and [illegible] with the others.

"The most miserable of all Humbugs."

The Bangor Democrat a few weeks since pronounced the Wilmot Proviso "*the most miserable of all humbugs.*" This declaration we considered at the time as a very bold one, particularly as many of its party have abandoned the Southern ground and now adopt the essential Whig tenent of no extension of slavery. In the past, no fact is more clearly written in our political history than that the Whigs of the North have always been the firm and reliable opponents of slavery extension. On the contrary the sentiment of the Loco party in New England has been essentially Southern, devoted to those measures and doctrines and tendencies which have slavery as a basis. The Bangor Democrat [illegible] and it wishes its party to continue standing upon its old platform and in the language of Gen [illegible] from that platform every subject in which the Democracy of the North and the South could not fully agree and cordially unite. The Bangor Democrat does not like that *progression* of its party which leads it even in the cause of human liberty, to adopt a single doctrine of the Whig party, or to approach in any degree to its likeness.

It may be that there are some who in the changes which have taken place and forgetfulness of the past may doubt whether in fact the aims and tendencies and the sentiment and action of the Democracy of New England was ever of so strongly Southern character as we have represented, and of which the Democrat is now its true exponent. We would refer all such to the following passages from a report made in the New Hampshire House of Representatives ten years ago.

"The slaves, as a race, are *without capacity* BRUTAL, COWARDLY, grovelling in their dispositions, upon whom Nature has fixed the seal of PERPETUAL INFERIORITY."

Report adopted by the N H House of Representatives, 1839.

Resolved That Congress OUGHT NOT to INTERFERE THE SLAVE TRADE between the States or to ABOLISH SLAVERY IN THE DISTRICT OF COLUMBIA or the TERRITORIES OF THE UNITED STATES.

This extract embraces essentially the sentiment of the New England Democracy ten years since. The mixture of liberty, more and more with the politics of the country, and the reverses which the locos have suffered, have caused a majority of the loco party to abandon their Southern position and to shout so loudly in hostility to slavery, and to become so fidgetty to be ahead of the Whigs as almost to lead to a doubt of their entire sincerity in the matter. The Bangor Democrat does not believe in the expediency of the change, and does not relish the introduction of so thorough [illegible] a Whig principle into the creed of its party as that of hostility to the extension of slavery. We call it a Whig doctrine because the Whigs of the North have long stood by it as a matter of principle and from which they have seen no occasion for them to change. They have remained the sincere, true hearted friends of freedom, and, in the past, the loco leaders and the loco presses have not been slow to denounce them as abolitionists.

But what now has the Democrat to do? It knows that a slavery limiting loco leader a few years since was a rarity, a strange affair, a political curiosity, a sort of miracle to produce which required a suspension, if not a violation of all the laws of nature. But time's changes have wrought wonders, and various influences have been at work, until in this State, at least a majority of the loco party have made an advance towards Whiggery. Our neighbor of the Democrat still holds out and pronounces the great and fast prevailing doctrine of the non-extension of slavery to be "the most miserable of Humbugs." In the face of this, yesterday's mail brought us the intelligence that Senator Benton intends to [illegible] Stat[illegible] particular attention, and unless his views are misunderstood, he is prepared to defend the application of the [illegible] restriction to the new territories.

The same mail brings a rumor that the Hon R McLelland Representative from Michigan is 'coming out,' for the Wilmot Proviso and the Barnburners. He was one of Cass's right hand men during the campaign. He opposes all territorial bills that do not embody the Proviso. What will our neighbor do? Will he hold out?

☞ We yesterday visited Mr Brockmuller's Green House, on Grove street. He has now a very full blooming of beautiful flowers, of which he is prepared, at a minute's notice, to furnish boquets for Parties, Balls, &c. He has on hand, a large variety of Hyacinths, Roses and other rare flowers which he will dispose of to those who wish to enjoy the pleasure of seeing them unfold and display their beauties and their fragrance. A visit to this Green House will well repay any one for the trouble of walking thither. The weather recently has been cold but the bright clear sun for so many days in succession, has given to the flowers great perfection of coloring and of form.

☞ In our advertising columns to-day is a notice of interest to those who propose embarking soon for the Gold Regions. The Kennebec Trading and Mining Company is composed in part of our own citizens, and is deemed one of the most substantial companies which has been formed for operations in California. We learn that the company is full, but that they can take out forty or fifty passengers and have already engaged several gentlemen and their families. The opportunity is a good one, undoubtedly for engaging in the gold hunt in California.

Mr Cave the eminent French Engineer, announces that he has ascertained that a number of small oak blocks, thrown into steam boilers has the effect of completely preventing incrustation and that it is sufficient to renew them about once a fortnight. If this be true, it is certainly a very valuable and important discovery.

The National Intelligencer says—We learn that the President of the United States intends to vacate the Executive mansion on or about the 1st of March. He has engaged rooms at the Irving Hotel, where he will remain with his family until after the Inauguration of Gen Taylor.

At the Whig Convention for the first District held at Exeter, last week, but one vote was given against the nomination of Mr Tuck (Free Soil) for Congress, on the 1st balloting.

☞ The Washingtonian County Convention will be held at the City Hall in this city, commencing at ten o'clock. There will be several addresses this afternoon, and the public are invited to attend.

☞ Remember the Quartette Concert to take place at Market Hall on this evening. The singing will be charming and, then the [illegible] and artistic claims of the performers are neither few, or small.

☞ The Bible on which the first inauguration oath was taken by Washington, is still preserved in New York, and will be taken to Washington to be used at the inauguration of Gen Taylor.

☞ A very large crop of ice has been secured in Massachusetts and all along shore.

John Temple, of Oldtown.

It is with deep regret that we are called upon to announce to the public the death of our esteemed citizen, Dr. John Temple. He died on the morning of the 15th inst, after a long and distressing sickness, doubly mourned by his relatives for the kindred bonds severed by his death, and for his many private virtues and sincerely lamented by all our citizens, who lose in him a physician in whom all they had placed the utmost confidence, and whose place few of his profession can fill.

Dr. Temple had been a resident of our town for many years during which time he had earned for himself a well merited place in the esteem and affections of all who knew him. As a physician none knew better than he, the requirements of the [illegible] and afflicted. As a [illegible] he was under [illegible] good report and well recommend [illegible] himself by the nobleness of spirit and unbending integrity, to the honorable consideration of his fellow men.

Brother Temple acted upon life's [illegible] upright man and a Mason—and that he walked by the square, and circumscribed his passions within due bounds of the cardinal virtues, all who knew him can well avow. He was not only a Mason in form but also in heart. With Brotherly Love and Relief he met all [illegible] found him, and Truth sat upon his brow as an ornament—while Freedom, fervency and zeal marked the good services which he performed in the practice of his profession. Those who knocked at the door of his heart, always met their due response, and it was sufficient to command his services that he knew that they were needed. No man is perfect while on earth but forgetful of his foibles if any he may have had, his virtues will long be remembered. Brother Temple was buried on Sabbath day at his request under the direction of the "Star in the East Lodge" of which he was a member and none more worthy than he to receive the Grand Honors of that solemn service.

Rising Virtue Lodge from Bangor, came up and participated with us in the ceremonies—Nobly they appeared and nobly did they act their part—well showing on this occasion that their Virtues are ever Rising. The [illegible] Lodges of Odd Fellows and Sons of Temperance, in our village, of each of which brother Temple was a member also joined with us in giving honor to him to whom it was due.

The day was fair. The usual services in the other churches were suspended and all came to participate in the general mourning. The opening prayer was made by Rev Mr Merrill, pastor of the Congregational Society whose large church was generously offered for the occasion, and which was filled to overflowing.—The sermon was preached by Rev Mr Hopkins, the excellent pastor of our Methodist Society.

Our Master Rev O H Johnson, of the Universalist Society, directed the Masonic ceremonies, which were truly solemn and impressive. A long procession followed the remains of our departed brother to the grave. And there on the brow of a small hill in our village church-yard by the side of his ever lamented brother, with due form, we deposited the earthly Temple in its last resting place, and Cassia long will mark the spot where it lies. While his soul, guided by the Blazing Star fashioned to perfection by the Grand Master's hand and raised by his word, has become a living stone in that spiritual Temple, that house not made with hands, where the Supreme Architect of the Universe rules, and governs the Eternal Lodge. Facts relative to Gen Taylor's Family.

A correspondent of the National Intelligencer, signing himself "Calvert," corrects some erroneous statements in regard to Gen Taylor's family, and says

General and Mrs Taylor have no children young enough to be "going to school" in Baltimore or elsewhere. They have there a daughter married to Dr. Woods of the Army, and now on that station. Col Taylor, the General's brother whose lady is a daughter of the Hon John McLean, is also in Baltimore, and attached to that station.

The public attention and curiosity seem to have been won away from the General entirely by his better half, for his biographers have not told us who she is. Now for the honor of old *Calvert county*, in Maryland, be it known, that she produced the only person to whom General Taylor ever has surrendered. Mrs. Taylor comes not only from Calvert county, but from, it is believed, the very estate on which Mrs. Adams's father if not she herself was born—on the shores of that river the Patuxent which navigators have said was the boldest and the most beautiful they had ever entered.

Mrs Taylor's father was Captain Walter Smith, an independent and highly respectable farmer, whose estate was situated on the right bank of St Leonard's creek, in which Commodore Barney's flotilla was blockaded in the late war. She is the sister of the late Major Richard Smith, of the Marine Corps, well remembered in Washington and New York especially, for his gallant and soldierly appearance and bearing, and his fine social qualities. It was in Kentucky that the General, then a very young man, saw her, and was conquered. With that reservation, it may be said, to use the words of young Crittenden to Santa Anna, "Gen Taylor never surrenders."

Extraordinary Development—Diplomatic Smuggling.

We have seen a letter from one of the Northern European capitals, in which is disclosed a fact most humiliating to our country. It is alleged that the diplomatic representative of the United States at one of the Northern courts, having been for some time suspected, has at length been detected in smuggling British goods—laces calicoes &c—to the amount of 20 000 rix dollars, supposed to be a joint concern with some trader in the capital referred to. The ten large boxes containing the goods were represented by the diplomatic gentleman to contain only supplies for his own family such as sugars &c, but one of them was accidentally broken open in the Custom House, and the discovery was made. The Custom House authorities took possession of the whole.

The discovery is said to have produced the deepest mortification among the American residents.—Com Adv.

The largest lumps of gold recorded in the histories of the gold mines, are as follows. One found at the Wicklow mines, in Ireland, weighing twenty two ounces, one in Peru, weighing twenty six pounds and a half, several in Quito, *reported* to have weighed about one hundred and six pounds, one in Lebanon, North Carolina, found in 1810, which weighed twenty-eight pounds and one in New Grenada, which weighed twenty seven pounds and a half. These, we believe, are the largest lumps on record.

Officers for 1848-9. JAMES McMURTRIE, *President*—JOSEPH SILL, *Vice President*—THOMAS GRIFFITHS, *Treasurer*—H. H. DOTY, *Actuary and Corresponding Agent*.

MANAGERS—Rev Henry J Morton, D D, Rev Wm H Furness D D, John Towne, Charles Toppan, John Sartain, Charles Macalester, Hon Wm D Kelley, Jas S Wallace, H B Wallace, Henry Reed, W M Tilghman, Henry Carey, J Francis Fisher.

D Bugbee, *Hon Sec'y*, Bangor.

The Art Union is established for the purpose of extending a love for the FINE ARTS throughout the United States and to give encouragement to Artists beyond that afforded by the patronage of individuals. Its promoters believe that these Arts can never attain their due rank in this country (already so far advanced in many of the other elements of civilization) until adequate encouragement be given to the highest efforts of the Painter and Sculptor.

For the accomplishment of this object, the Society has adopted the following Plan.

1. Each subscriber of Five Dollars becomes a member of the Art Union for one year.
2. The money thus obtained is applied, first, to the production of a large and costly Engraving, from an original American Picture, of which every member receives a copy, and next to the purchase of Pictures, Drawings or other works of Art, with the funds distributed by lot among the members for that purpose.

Thus, for the sum of Five Dollars every member is sure of receiving a fine Engraving (worth alone the amount of his subscription) and the chance of obtaining a fine original Painting TO BE SELECTED BY HIMSELF from any public Exhibition in the United States.

The first Monday in May, annually, being the time fixed by the By Laws for the distribution of prizes, it is desirable that all subscriptions should be received before the last Monday in April. The details of the Plan may be learned from the following extract from the By Laws.

ARTICLE IV.

PLAN FOR DISTRIBUTION.

SECTION 1. The Board of Managers shall as soon as practicable, after their election, adopt measures for procuring an engraving from some picture of merit, by an American Artist and furnish to the members one impression thereof for every subscription of Five Dollars paid.

Sec 2. Should it be deemed necessary or desirable to purchase the picture to be engraved the Managers are empowered to do so, and it shall be represented at the Annual Meeting for distribution by one of the certificates reported by the Managers.

Sec 3. After defraying the cost of the engraving and other incidental expenses, the Managers shall, within one week previous to the Annual Distribution divide the funds in hand (exclusive of the "Reserved Fund" herein after described) into a number of sums of various amount adapted to the purchase of pictures or other works of Art by living American Artists, on exhibition or for sale in any accredited public gallery* throughout the United States, and such sums shall be represented by certificates which the Managers shall cause to be prepared and reported to the Annual Meeting for distribution, by lot among the members.

Sec 4. Within five days after the distribution, the Managers shall forward certificates to those members to whom they have been awarded, which shall entitle the recipient to select for himself a picture, drawing, or other work of Art, in accordance with the terms of the preceding section, which certificate, endorsed by the artist from whom the work has been purchased, and accompanied by a full description of the work and the gallery from whence it was chosen, shall be the Treasurer's voucher for the payment of the sum called for.

Sec 5. For every additional share or subscription of Five Dollars paid, the member shall be entitled to an additional chance in the distribution of certificates, and an additional impression of any engraving that may be on hand, but no member shall have more than one vote in the election of Managers, nor shall any one be entitled to vote who has not paid his subscription for the current year.

Sec 6. Any member to whom a certificate has been awarded, shall have the privilege of selecting the work of Art he prefers, but, in addition to the provisions of section 3d of this article, it must be an original work, and the property of its author at the time of purchase, who shall have given in its price at the time of depositing his work for exhibition.

Sec 7. A certificate shall in no case be applicable to the purchase of more than one work of Art. If the picture selected by the certificate holder be of less value than the sum named on the face of the certificate, the amount thus unexpended shall revert to the "Art Union, and be added to the "Reserved Fund," but a certificate may be used in part payment of a larger sum for a work of greater value than the sum named on the face of the certificate.

Sec 8. A certificate must be employed, and the selection be made within the period of seven months from the Annual meeting at which it was awarded, otherwise the amount shall be forfeit, and added to the "Reserved Fund."

Sec 9. Should the Managers deem it expedient at any time to collect the prize pictures for public exhibition, it shall be the duty of members to loan the works so obtained, in their possession, for that purpose or for the purpose of engraving, if deemed expedient, but the said requisition shall cause no expense to the owner, nor shall it be obligatory on him to loan it more than once. Any profit accruing from such exhibition shall be added to the 'Reserved Fund.'

Sec. 11. If it be discovered that any collusion has been attempted between a prize holder and an Artist, for the purpose of evading any of these foregoing regulations, the amount of the certificate shall be forfeited to the Society, and be added to the "Reserved Fund," and the holder of the certificate have his subscription returned to him.

*The Galleries now known to be established, are those in Philadelphia, New York, Boston, Baltimore, Albany, and Cincinnati.

ARTICLE V.

THE RESERVED FUND.

Section 1. In addition to the money heretofore provided for the foundation and increase of the "Reserved Fund," the Treasurer shall, from time to time, under the direction of the Executive Committee, be required to place unemployed funds at interest, and the interest therefrom shall be added to the "Reserved Fund."—Whenever this Fund shall exceed Two Thousand Dollars, the Managers are authorised to offer a premium of such amount as they shall determine, for the best picture, to be painted by an American Artist; which picture when selected, shall, if suitable, be engraved for distribution, and the painting itself be represented by one of the certificates to be awarded at the Annual Distribution.

Subscribers for the year ending May 7th, 1849 will receive for each subscription of Five Dollars paid, an impression of an elaborate Engraving, executed expressly for the Association, from the picture of *RUTH and BOAZ* by P F Rothermel, in the possession of Joseph Sill Esq Philadelphia engraved by John Sartain, in a mixed style of line, stipple and mezzotinto, size, 21 inches by 15 1 2.

The Art Union has a Free Gallery of Art at the Art Union Building, 210 Chesnut street open daily (Sundays excepted) throughout the year, from which pictures may be selected by those to whom certificates have been allotted. Subscribers residing at a distance from those cities where galleries are established, if they fortunately draw a Prize, can apply to any friend of art to make a selection for them, or if they prefer it, a Committee of the Art Union will with strict fidelity perform the duty, although the Managers prefer at all times, to have the transaction made directly between the Prize Holders and the Artists. Still, to meet cases which may offer [illegible] difficulties, they will at any time facilitate the wishes of their friends from abroad.

Gentlemen desirous of acting as Honorary Secretaries or Agents, to the Art Union, where none have been already appointed are invited to communicate with H H Doty Esq to whom it is requested that all letters may be addressed, at the office, No. 210 Chesnut street, Philadelphia.

Congress

WASHINGTON, Feb 17

In the Senate the bill from the House for establishing a Home Department was read and referred to the committee on Finance. Mr Webster's resolution, inquiring into the expediency of taking security from emigrant paupers came up, an amendment for printing certain decisions of the Supreme Court on the subject was adopted, and the resolution passed.

Mr Rusk's bill to establish a mail from Mississippi to California, was ordered to be printed.

Mr Douglass gave notice that he would on Monday move to take up the California Bill. The bill authorising the Galveston and Red River Company to make a road to California was referred to a committee. The Civil and Diplomatic Bill came up.

Mr Benton offered an amendment striking out the appropriation of $186 000 for the coast survey and inserting $30 000, also directing the survey to be made exclusively by the Navy under direction of the President. He alluded to the necessity of modifying the present system of Coast surveys. Mr Pierce spoke in defence of the present mode of conducting surveys, and mentioned the benefits derived. Adj.

In the House. A resolution was adopted to stop debate on the Mexican Indemnity Bill on Monday at two o'clock. The House then went into committee on the bill. Mr Buckner of Kentucky, addressed the committee on the Slavery question, Mexican war and the acquisition of territory taking conservative ground, and contended that slavery could never go to California, that Congress had the power and the right to exercise the same to keep it out.

Mr Stephens of Georgia followed contending against all legislation for California maintaining, that the President and two thirds of the Senate had no power to compel the House to vote for appropriations for purchasing territory. He explained the rights of the House, and said that when the principle should be established that the House should only obey the behest of the President and Senate, neither the government of the Union or anything else would be worth preserving. Establish this principle, that whatever the President and Senate agrees upon the House must yield to, is the law of the land then the people by a corrupt Executive and Senate might be [illegible] standing army might be permanently stationed in California and [illegible] in the teeth of the constitution declaring it should not be raised for over two years, or a treaty with New Granada might be formed, giving five ten or fifty millions for the right of way over the Isthmus. He condemned all such doctrines and was interrupted by Mr Rhett who contended that no one on his side of the House had controverted the doctrine which Mr Stephens contended for.

The latter said it had been controverted, and Mr Rhett knew it. He felt aggrieved but was obliged to stand up for it. He denounced the course pursued by the President as outrageous. Mexico was properly denominated by a Senator the 'Forbidden Fruit' and yet the Senator was [illegible]. He replied to the President's argument in relation to the Protocol recapitulated the efforts the President had practised by fraud and deception on the Oregon question on Mexico, on Mr Benton on Mr Wilmot, whom he had told he would approve his Proviso and on the American people. He was followed by Mr Lahm of Ohio, who took the Northern side on the Slavery question.

The House held an evening session. Mr Lahm continued his speech. He quoted British precedents and legal decisions upon disputes as to the assumption that slaves are property. He explained [illegible] the slave representation of the South and said he was opposed to the [illegible]. They [illegible] more power at the South than they could have at the North.

Mr McClelland of Michigan next got the floor but yielded it to Mr Wilmot of Pa who detailed a conversation which he had with President Polk two sessions ago in which Mr Polk in speaking of the $3 000 000 appropriation bill to effect peace with Mexico expressed a wish that no slavery restriction should be attached.

A chap reading in a paper that Mexican *files* had been received in the city, went into a hardware store and asked to look at some of them.

There are lands on Kentucky River, devoted expressly to raising willow twigs for baskets, which are shipped to Cincinnati, in bundles of hundreds. They pay a handsome profit.

Feb 20

(From the Boston Chronotype, Oct 1847.)

Consumption is the great curse of our northern latitudes. It is the blight of domestic felicity and the despoiler of beauty. It robs the cheek of its beautiful bloom the mind of its serenity, and the eye of its brilliance. It waits the hectic flush, dims the intellect and plunges a victim into an early grave. The young and the old, the serious and the gay, the city belle, the country lass, are alike its prey and its victims. Blessings on the man then, whose genius and research furnishes the weapons to bid defiance to this "Dweller on the Threshold." He merits the applause and gratitude of ages—he shall have ours, at least.

One of the most important discoveries of modern science for the cure of pulmonary affections is the BALSAM of *WILD CHERRY* and the credit of its discovery is due to the celebrated Dr Wistar. This valuable compound has restored thousands of sufferers to health. It is expectorant, tonic and demulcent and it is said to be a purely vegetable preparation. Under its magic influence the most obstinate *coughs, colds, and bronchial irritations disappear*. We have used it and can *recommend it*, particularly at this season, when the great cause of disease, chill winds, are so prevalent.

None genuine unless signed I BUTTS on the wrapper.

For sale in Bangor by G W LADD, Agent.

☞ Effect of the Hungarian Balsam upon the victims of Consumption in Cotton Factories.

From the New England Operative. The Hungarian Balsam has done more to relieve the sufferings of the operatives employed in our cotton factories, who are afflicted with weak lungs, than all the doctors in the country.

Washingtonian Convention.

The Washingtonians of Penobscot County are hereby notified that their Annual Convention will be held at the City Hall, in Bangor, on THURSDAY, the twenty second day of February inst at ten of the clock in the forenoon, for the choice of Officers, and the transaction of such other business as may come before them.

It is to be hoped that each and every Washingtonian will be present, and show that he still feels an interest in the promotion of Temperance that he has not forgotten his old pledge of devotion to that cause, in his devotion to interests merely selfish. It is time the Washingtonians should arouse from their sleep and let the world know that they are what they profess, disciples of Washington and not of Rip Van Winkle.

Per order.

A despatch from Albany states that E C Kendrick has been appointed Cashier of the Bank of Albany.

Gen Taylor is anxious to get to Washington he was to leave Wheeling this morning.

Distress and Loss of Life.

A despatch from Philadelphia announces the arrival at Delaware Breakwater, on Monday, of the British ship Cambria from Londonderry for New York in distress, and short of the necessaries of life. 55 passengers died on the passage and seven more were taken on shore and buried. The Revenue Cutter Gallatin afforded the necessary relief.

The brig Henry arrived at Charleston 21st inst from Chagres which place she left on 21st ult. The Capt landed his passengers in good health. They found transportation ready for them by the American ship Philadelphia. The Captain further reports that all was well at the various points, and generally healthy.

A passenger in the steamer Sarah Sands which arrived yesterday from Liverpool states that the weather during the passage was so severe as to seem like one continued gale. The ship was at times nearly thrown on her beam ends she however weathered the gales in perfect safety.

FOR CALIFORNIA!

The new, splendid, well coppered and copper fastened Bark

GOLD HUNTER,

of three hundred tons burthen now building will be ready to leave for the *Gold Regions* the last of March next and will proceed directly there provided a sufficient number of passengers and quantity of freight are procured

This Bark will remain upon the coast of California for several months at the most convenient point for the gold region and then return to Bangor

Passengers in the GOLD HUNTER will be supplied with all the necessaries of life and will have the privilege of making the Bark their home and store house while she is on the coast She will be fitted up expressly for the business and every attention will be paid to the want and wishes of her passengers This is one of the safest and pleasantest modes in which our enterprising citizens who wish to avail themselves of the recently discovered treasures can do so

The GOLD HUNTER will be commanded by one of the most experienced and thorough seamen on the river in whom all will have entire confidence and the voyage will be wholly made up under his direction and with special reference to the interests of the passengers

No voyage has been projected for a long time which promises to be so pleasant and profitable as this, and those who propose to take passage in this substantial vessel and avail themselves of the numerous advantages here offered, will please make immediate application to the subscriber
